

## COUNCILS IN SPECIAL SESSION.

## Minister Damon Offers Resolutions In Favor of Volunteers.

Persons Holding Government Positions and Not Loyal to the Cause Should be Removed From Office.

A special meeting of the Executive and Advisory Councils was held yesterday afternoon at 1:30. There were present President Dole, Ministers Damon, King, Hatch and Smith, and ten members of the Advisory Council.

Minister Damon offered the following resolution:

Resolved, That the officers and privates of the volunteer companies on duty at the Judiciary building from January 17, 1895, to February 11, 1895, be allowed the same rate of pay as paid volunteer officers and privates between January 6, 1895 and January 16, 1895.

The resolution was passed without a dissenting vote.

Minister Damon then offered the following:

Resolved, That Section 4 of Act 73 of the Executive and Advisory Councils of the Provisional Government of the Hawaiian Islands, be not construed as to apply to persons on military duty, and members of the Citizens' Guard.

Councillor Emmeluth did not believe a man who received as much as \$1800 a year should be entitled to pay for services rendered. Those who only got the modest stipend of \$40 a month were the ones entitled to extra remuneration.

After some discussion by several members the resolution was passed unanimously.

Councillor Emmeluth put the following question to the Minister of Foreign Affairs:

Has the Minister of Foreign Affairs at any time during the past ten days given assurances of recognition to royalists that they could organize and agitate for annexation without taking the oath of allegiance to this Government?

Minister Hatch made plain the status under which the meetings referred to were held. It was not necessary for those organizing and carrying out the movement to take the oath of allegiance, as published in this paper some time ago.

After some discussion on the relative merits of persons holding views inimical to the Government retaining office, the Councils went into Executive session.

## WANTS A CABLE TO HAWAII.

## Fleming Thinks Pacific Ocean Commerce Will Warrant It.

TORONTO, (Ont.), Jan. 24.—Sandford Fleming, referring to the dispatch from Washington stating that Mr. Hale had introduced a bill in the Senate providing for \$500,000 for the survey of a cable route connecting the Hawaiian Islands with the United States, said today:

"I shall regret if the United States do not see their way clear to assent to the application of the Hawaiian Government to give a landing station to the Canadian-Australian cable within the Hawaiian archipelago, but their refusal to give their assent will not in any way interfere with the project of connecting Canada with Australia, as the cable can be established without landing on the Hawaiian Islands. British interests will lose nothing. The Hawaiians themselves will be the only losers."

Mr. Fleming thinks that should the United States Government determine to lay a cable from San Francisco to Honolulu, and at the same time assent to the landing of a British cable on some one of the Hawaiian islands, the general interests of commerce will be greatly benefited, and that in a few years the commerce of the Pacific will be sufficient to justify the establishment of both cables.

## RAILS FOR THE RAILROAD.

## Shipment of Best Bessemer Steel On the Way.

Twelve hundred tons of the Bessemer steel rails are now on the way to this country from New York to fill the order placed by Mr. C. M. Cooke, on his last trip to the Coast, for the Oahu Railway Company. These rails are of the best Bessemer steel, averaging forty-eight pounds to the yard.

Manager Dillingham expects the order will arrive early in March, and the work of laying them on the Waianae extension will be promptly begun.

This is the first shipment of American rails ever made to this country, but, as the grading of the railroad in the completion of the circuit about the island goes on, Mr. Dillingham anticipates that it will not be the last.

The ADVERTISER is the leading daily paper of the Hawaiian Islands. It has a larger circulation and advertising patronage than any paper published in the Hawaiian Islands. Telephone 88.

## HE'S A DANDY.

## Mr. Lorillard Kip Is Called the Best Dressed Man in New York.

In one respect at least Mr. Lorillard Kip towers above some 500,000 men in New York city. He is the best dressed man in the metropolis. This pinnacle of fame has not been reached without a vast expenditure of time, thought and money, but Mr. Kip has been lavish in his outlay of all three, and true to his ambition he has clambered to the very top round of the fashion ladder without even bagging his trousers at the knees.

Mr. Kip, who is a son of Colonel Lawrence Kip, a veteran of the war and a man well known in social and horse circles, is in the real estate business, but in order to maintain his position at the top of the fashion ladder he naturally is compelled to pay more attention to trousers and derbies than to titles and deeds. He of course draws his tailoring inspiration from London, but his clothes are made in New York. His high hats and boots, however,

MR. LORILLARD KIP.

are made on the other side, owing to the fact that New York hatters and bootmakers cannot correctly copy the English styles, in Mr. Kip's opinion.

Like the Prince of Wales, Mr. Kip has his silk hats made on his own block in London, and they are always of the same shape—short, broad crowned and wide brimmed—regardless of the varying styles worn by other people. He never wears a hat that has not been freshly ironed. His frock coats reach to his knees, are well cut in at the waist, and the instant he doffs a suit it is pressed by his valet. He has about 40 pairs of trousers in a season and rarely wears the same pair twice a week. It is unnecessary to add that they never, under any circumstances, bag even a sixteenth of an inch at the knees.

One secret of Mr. Kip's success is his quietness and good taste. He never goes to extremes. He usually dons about 80 everyday suits, four dress suits and three tailless coats in the course of a season. He wears varnished patent leather shoes all day long, and when his shoes are not in use they are put on trees to preserve their shape. He wears very little jewelry and never changes his clothes less than three times a day. The maximum number of changes is unknown.

## "CONJUGAL JACK POT."

Unique Bachelor Club in Detroit Designed to Encourage Matrimony.

The city of Detroit, famous afar because of Mayor Pingree's municipal potato patches, has again come to the front with a matrimonial aid society that is as unique in its way as the potato patch scheme. The society was recently organized by a score of gay young bachelors and is called the Bachelors' Mutual Benefit and Matrimonial Insurance association. D. Lindsay Russell, a young attorney, drew up the constitution and bylaws, and the object of the association is to accumulate a "conjugal jack pot or trust fund" by means of monthly dues of \$1 a member. Of this sum 10 per cent is to be paid on the day of marriage to the successful young lady who opens the jack pot by entering into a matrimonial alliance with any member of the association. The remaining bachelors belonging to the club stay in the game, of course, and the fund continues to accumulate and to be drawn on whenever a charming young woman wins the heart and hand of a member and a "rake off" on the all important fund as well. In order

D. LINDSAY RUSSELL.

der to allow sufficient time for all well meaning Michigan bachelors to come in and to guard against possible conspires of a hymeneal character, no young lady who marries a member of the society before March, 1895, will be allowed to open the initial jack pot. After that time, however, the fund may be drawn upon at sight.

Before a member is admitted the advisory committee of the association carefully looks up his previous and present status with reference to the gentler sex, and no engaged man is eligible. Each member must answer these questions:

"Are you married? Are you engaged? Is there any prospect or probability of your becoming engaged before March, 1895? Are you hopelessly, irrevocably and unrelentingly in love with any lady, either young, middle aged or supernumerary, and, if so, do you think that she will consent to marry you, or will it be a case of bankruptcy of the heart? Do you possess either constitutional or acquired inclination or propensity for falling in love, and, if so, how many times have you been in that condition? Do you enter this association voluntarily and with an earnest desire to promote and foster the interest and welfare thereof?"

John J. Montague of Detroit is president of the association, and Humphrey E. Harold of Grand Rapids secretary and treasurer. The conjugal jackpot threatens to become deservedly popular among Michigan girls.

Rubber stamps at Gazette office.

EARLY SPRING COSTUMES.

In the center is a beige and green cloth suit for early spring wear. The skirt is open in front over a panel of green cloth. There is a short military cape lined with scarlet silk. At the left is a costume of old rose cloth with a plain skirt. The coat reaches nearly to the knees and closes invisibly. Collar and cuffs are of terra cotta.

## PUSS IN BOOTS.

Is all right a-foot. This is quite necessary, not only for puss, but for every one in town, this time of the year. Keep the feet all right, and health and comfort are apt to be secure. Our stock of footwear embraces pretty much everything in boots and shoes for in and outdoor wear, business and pleasure, town and country. After inspecting our collection of footwear, there's nothing more to see in the way of variety, and certainly no prices can be lower than ours. These figures were made on a little last, and the goods are good enough to last till the flowers come again.

## THE MANUFACTURERS' SHOE COMPANY, 516 FORT STREET.
